# S. S. Benedict and Scholastica's Academy,

— CHICAGO, ILLS. —

Founded 1865.

-

-

-

-

Chartered 1872.

**T**HIS Institution for the education of young ladies is conducted by the Benedictine Sisters. It is situated on North Market Street, between Hill and Wendel. Attached to the building is a large garden and play-ground for the amusement and physical welfare of the pupils.

The Scholastic Year is divided into two sessions, of five months each. The first session commences on the first Monday in September and ends the last day of January. The second session commences the first day of February and ends the last Thursday of June.

The Institution is intended for both boarders and day scholars.

On entering each student will be examined and classified according to her attainments.

Semi-annual examinations are held to inform parents of the conduct and progress of their daughters.

Among the means made use of to promote emulation are : the Tablet of Honor, Reports, Annual Distribution of Premiums, Crowns and Medals.

The course of study is pursued in the English and German Languages.

The plan of instruction embraces the courses of the Primary, Preparatory and Academic Departments.

---

## THE PRIMARY DEPARTMENT.

This Department comprises the First, Second, Third and Fourth Grades. The object of these classes is to introduce young

pupils to the study of the rudiments of both languages English and German; and to form them to habits of attention and application. Spelling, Reading, Arithmetic, Language and Object Lessons, Geography, Writing, Drawing, Singing and Calisthenics are begun.

---

#### **THE PREPARATORY DEPARTMENT.**

This Department comprises the Fifth, Sixth, Seventh and Eighth Grades in which the following branches are pursued: Christian Doctrine, Bible History, Reading, Orthography, Penmanship, Grammar, Geography, Arithmetic, Physiology, U. S. History, Composition and Letterwriting, Drawing and Singing.

---

#### **THE ACADEMIC DEPARTMENT.**

This Department embraces a period of three years and includes the studies of Christian Doctrine, Church History, Etymology, Physical Geography, Rhetoric, Book-keeping, Algebra, Geometry, Physiology, Chemistry, History, German and English Literature, Logic, Geology, Mental and Moral Philosophy, Civil Government, Elocution, Physics, Astronomy and Botany.

---

#### **DEPARTMENT OF MUSIC.**

Great attention is given to Instrumental and Vocal Music in which theory and practice are carefully combined.

The Gold Medal is rewarded only to pupils who are proficient in Theory as well as in Execution.

---

#### **THE ART DEPARTMENT.**

A thorough course of instruction is given in this Department. The elements of Drawing are taught in class free of charge; talented pupils are thus discovered and encouraged to begin Studio Work; here all pupils are required to study Perspective Drawing and in charcoal draw from casts or from life according to the progress of each.

In order to win the Gold Medal the pupil must have completed a thorough course of Pencil and Charcoal Drawing to heads from life or through water color and oil to landscapes or heads from life.

---

Particular attention is given to the German Language as it forms a portion of the regular course.

Though the solid studies are regarded as the most important much attention is given to Plain Sewing and all kinds of ornamental Needle Work.

Instruction in the art of Domestic Economy in all its branches is also given if desired.

---

#### THE POST-GRADUATE DEPARTMENT

is designed for former Graduates who wish to pursue some special study or to attain greater proficiency in Music or Art.

---

Though the government of the Institution is more mild than severe, yet for the maintenance of order, strict obedience, assiduous application and blameless conduct are required of every pupil. A serious neglect in any of these points will render the scholar liable to effective correction and even to dismissal.

Pupils are received at any time during the year, but not for a shorter period than a Session; charges are made from the date of entrance.

Gold Medals are awarded to those young ladies whose proficiency entitles them to the Academic Honors of the Graduating Class or to distinction in other departments.

The scholastic term closes with Anniversary Exercises, Distribution of Premiums and Exhibition of the Young Ladies Work. Cards of invitation are sent to the parents and guardians of the pupils and to the friends of the Institution.

As the progress of the pupils depends greatly on regular attendance at school as also on their private studies at home they should never be absent except for grave reasons.

In case of absence, a satisfactory note is required of the parents or guardians.

All the pupils attend the Religious Exercises, for the sake of uniformity and discipline, but no one's religious convictions are interfered with.

All pocket money must be deposited in the hands of the Directress.

The jewelry permitted to be worn consists of a scarf pin and ear rings.

The pupils are forbidden to have private friendship, but social kindness and cordiality should be the bond that unites all in one family circle.

Wednesday is the appointed visiting day for relatives and friends.

All calls, whether on teacher or pupils, should be confined to hours before or after those of regular school duty.

References will be required of strangers desiring to enter pupils at the Academy.
